About the Lessons – students learn physics, mathematics, mechanical & software engineering via engaging demonstrations and building Lego prototypes of real-world machines. Problem solving, critical thinking, building resilience & innovation mindset are key elements of the program.

About How We Teach - classes operate a multi-age environment. We optimise our delivery according to ability and interest of students. Lessons and activities are different for each term.

Peace of Mind - all educators are working with children compliant according to state laws. All after-school clubs operate in agreement with the host school.

Young Engineers club is an Australia-wide initiative to help kids Learn and L♥VE STEM
